

New Articles Online Today!

With the approach of Spring, we turn our attention to the landscape and the March edition of the *Ecological Landscaper* directs our attention first to trees.

[SHEET MULCHING](#)

By Tricia Diggins

The Wellesley Botanic Gardens has begun using Sheet Mulching as a tool to address invasive plants that have been encroaching on many trees on the property. [Learn more.](#)

[TREE CARE: MANAGING THE THREAT OF WINTER MOTHS](#)

By Carl Brodeur

Arborist Car Brodeur explores the threat posed to shrubs and trees by Winter Moths and describes ecological measures to manage the threat. [Learn more.](#)

[A BETTER UNDERSTANDING OF TREES AND THEIR ECOLOGY](#)

By Rolf Cachat-Schilling

First consider some of the traditional approaches to trees, and then explore a different perspective on trees and tree communities through this thought-provoking article. [Learn more.](#)
